In this class, we will examine the construction of race and its intersections with gender and sexuality through the prism of films, documentaries and other visual media. We will explore how films have represented race and gender and how these images consequently shape and influence our understanding of people in the real world. These images seem insignificant to the majority of viewers because they are perceived to have entertainment value only.

In this class, we will discuss and study how cinema is not only a form of entertainment but also a medium for informing us about the world we live in. In addition, cinematic images interpret our world and fill it with meaning. We will explore these processes through journal writing by focusing on how they play out in the conscious/unconscious spectator’s relationship to cinematic images. To illustrate and understand the depth of this impact, we will watch films and documentaries and see how they influence our opinion on race, gender, sexuality etc. Examples include Pocahontas (1995) and Paris is Burning (1990)

Course Objectives: The primary objective of the class is to develop critical thinking, speaking and writing skills that can help students in deconstructing visual images (especially those that are considered pure entertainment by the majority of viewers). Students will achieve this objective through writing journals, and response papers, leading discussion sessions and participating in class discussions. I also would like to introduce you to alternative and independent media/filmmaking. By watching the works of independent filmmakers and having conversations with them, you will learn that you can also become independent filmmakers/critics/writers.

Format of the Class: The format of the class includes weekly lectures, film viewings, journal writing, student presentations and in-class discussions. This is a highly interactive class and you will be required to participate in the discussions through journal entries, questions, comments, and class presentations. The purpose of these discussions is to make you feel more comfortable in expressing your opinions in a large group setting.

In this class, you will participate in the development of the class syllabus and selecting a film/readings for your class presentation. The purpose of these exercises is to develop your voices and opinions in the formulation, development and construction of knowledge and to understand the ethical implications of the knowledge creation and production process.
**Assignments:**

**Journal Assignment: (12%)** Your journal assignments are based on weekly readings—see the syllabus for deadlines and topics. These entries should be written in first person narrative. The purpose of these journal entries is to reflect upon the materials that you hear/read/watch on a weekly basis. Your journals should be typed and between one to two pages. **You will complete a total of 4 journals, which are each worth 3 points. Late journals will not be accepted.**

**Library Research Assignment: (5%)** In the third week of class, we will attend a library research session that will guide you in finding movies, articles, and reviews. For this assignment, you will select a narrative film of your choice, and research it by finding at least three scholarly articles written about the film. You are required to use the databases provided through your library—the sources can be electronic. You can use this session to find resources for your midterm/final assignment.

**Group Presentation (15%):** Select a film of your choice, and prepare/present a power point presentation that provides a quick summary of the film and explains how the movie addresses one of the following issues: gender, race, sexuality, or class. Conduct a quick library search and find one or two articles written about the film or those, which address any of the themes included in the film. Use these articles to support your argument and cite them in your presentation. Send your cited articles electronically to the class and the instructor a day before your presentation. Your presentation may include showing film clips, highlighting some of the major themes included in the film, and asking questions for discussion. You will work in a group and the assignment will count for 15% of your grade. The purpose of this assignment is for you to hone your research skills and to learn to share your knowledge with your classmates.

**In-class student feedback on group class presentations: 10%**. All students are required to actively engage with each group presentation by completing an in-class feedback handout. Your feedback should be constructive and comments should be connected to class readings, lectures and discussions. You can also comment on group effort and quality of the presentation. The completion of feedback handouts will count towards your grade. Forms should be handed back to the group at the end of the class who will give it to the instructor for grading. Note: Your feedback should reflect your efforts to engage with the presentation—handouts will receive a low grade low if I observe that comments are not constructive/relevant and if you are putting cursory effort into the handout. I will give you a one-time warning if your handouts are not meeting expectations.

**Final Abstract and bibliography: 10%** In the last week of class, you will be required to submit a one page abstract of your final paper along with a list of resources that you will be using to support your argument. You will also be required to share your topic area with the class and request feedback.

**Final Project: (38%).** Your final project could be a written paper (6-8 pages) addressing any of the themes discussed in the class or a creative project addressing the issues of race, ethnicity, gender
and sexuality. If you are writing a paper, you must use at least three scholarly articles to support your argument. You can also do a creative project. This project can be in the form of a short film/video or a documentary (3-5 minutes), a collection of photographs, a screenplay, or a short story. In the creative project, you will be required to address at least one and preferably two areas of study (race, ethnicity, class, gender, or sexuality) in your project. You will be required to submit your creative project to your instructor for grading. Please obtain instructor’s final approval before starting this project.

Note: I will not be providing any production or camera training in the class. If you are interested in making a short film/documentary, please make sure that you have some basic training in the use of cameras, lights, a sound system and editing. If more than half of the class is interested in making a short film, I may spend a class session on production techniques. Production equipment is available from media services at Knight library.

Grading Policy: Grading breakdown for the class is as follows:

1. Journals: 12%
2. Group Power point presentation 15%
3. Final abstract and bibliography: 10%
4. Final: 38%
5. Peer Evaluations: 10%
6. Attendance: 10%
7. Participation: 5%

Grading Scale:

1. A+ = 97-100       A= 93-100       A- = 90-92
2. B+ = 87-89        B = 83-86        B- = 80-82
